KOMMUNAL SWEEPING BUCKET

Sweeping bucket with a collection bucket, polypropylene brushes, and swivelling support wheels, particularly suitable for municipal and building construction works.

Equipped with a floating hitch to follow the ground conformity it has two hydraulic pistons that allow for the opening of the bucket and the option to raise the bucket for sweeping-only operations, without collecting material

STRENGTHS

- Hydraulic opening as standard on all models
- Increased direct-drive hydraulic motor
- Internal brush ø800 mm in PPL oversized as standard
- Brush wear adjustment with the real-time monitoring of brush wear through numerical identification
- Easily inspectable and replaceable bearings
- Quick and safe brush replacement
- Swivelling support wheels
- Easy and uncomplicated maintenance

OPTIONAL

- Side cleaning brush ø 600/800 with independent hydraulic motor available in PPL, mixed steel, steel
- Watering kit by pressure with 12/24 V pump and sprayers, 100, 200, 300, 600 l tank
- Wayering kit by pressure for operating machines with own tank
- Mixed steel internal brush
- Side brush nozzle
- Hydraulic brush angle kit ±20° with hinge
- Connector 8-14 poles 12 V
