WHEEL SAWS FOR MICRO TRENCHES

Designed for skid steer loader and Multifunction RC remote controlled by CM, with the purpose to cut and make narrow trenches, set-section trenches, mini- and micro-trenches for fiber optic cable installation. It works on different surfaces such as asphalt, cement and rock.

STRENGTHS

- Constant trench depth
- Clean trench
- High cutting force
- Structure designed to work on hard or compact surfaces
- Hydraulic depth adjustment as standard
- Easy and uncomplicated maintenance

Canalization /
Sobsoil

Demolitions
